

**California/Baja California Workgroup:  
Imperial-Mexicali Air Quality Taskforce Report**

Goals/Objectives	Main Priorities	Major On-going and Planned Activities	Milestones/Schedules	FY04/05 Funding Needs	Lead Agency/ Organization
Goal: Reduce Air Pollution					
<i>Objective 1: By 2012 or sooner, reduce air emissions as much as possible toward attainment of respective national ambient air quality standards</i>	Implement projects that educate the local population about air quality.	Hold an annual Environmental Health Forum		\$10,000	
		Real time data release—ozone forecasting		\$50,000	
	Develop and implement actions to clean sources of pollution	Binational Pollution Credit Program		\$100,000	
		Fugitive Dust Wind Breaks		\$250,000	
		Natural gas public vehicles		\$2 million	
<i>Objective 2: When baselines are defined, assist in developing alternative scenarios for emissions reductions in the Imperial and Mexicali valleys</i>		Vehicle I/M program		\$500,000	
	Administration of taskforce	Admin activities – Document preparation Minute taking Translation Meeting preparations		\$30,000	
	Air quality program review	Review of current programs in the region		\$100,000	
	Collect and maintain accurate data on air quality and respiratory health	Air monitoring network		\$500,000	
		Environmental health data center		\$1 million	
		Binational pollen network		\$75,000	

<i>Objective3: Assist in defining specific emission reductions strategies and air quality and exposure objectives to be achieved by 2012.</i>	Develop local capacity
